PREAMBLE

The Board of Directors is a collegial body that collectively represents all shareholders and acts under all circumstances in the interest of Viridien (the “**Company**”).

These internal rules and regulations aim to supplement the Company’s articles of association, in particular regarding the composition, operation and specific duties of the Board of Directors and its Committees. They are strictly for internal use and do not supersede Company’s articles of association but rather implement them. The Company’s Board Internal Rules and Regulations are subject to review by the Board of Directors as often as necessary.

The Board of Directors has established these Internal Rules and Regulations in accordance with the recommendations of the Corporate Governance Code of Listed Corporations published by AFEP and MEDEF (the “**AFEP-MEDEF Code**”), to which the Company refers voluntarily.

These Internal Rules and Regulations apply to all members of the Board of Directors. They must be communicated to and signed by each candidate for the position of director before they take office in accordance with the New Director Onboarding Guide (**Appendix 1**).

The Board of Directors adopted these internal rules and regulations on December 10, 2003 and last modified them on February 27, 2025.

1. THE BOARD OF DIRECTORS

1.1. Role of the Board of Directors

The Board of Directors defines the strategic orientations for the Company and ensures their implementation. Subject to the powers expressly reserved to the shareholders' meetings and within the limits of the corporate purpose, it reviews any critical question affecting the Company’s proper operation or impacting sustainability. It endeavors to promote long-term value creation by the Company taking into consideration the social and environmental aspects of its activities. If applicable, the Board of Directors proposes any change to the Company’s articles of association that it considers appropriate. It regularly reviews opportunities and risks such as financial, legal, operational, social and environmental risks as well as the measures taken accordingly. It is also responsible for regularly assessing the Company's exposure to cyber security risks.

At each meeting, the Board of Directors is informed of developments in the operating and financial activities of the Group's major business sectors since the previous meeting, including in the area of social and environmental responsibility.

This sectorial information is supplemented by a thorough review of the Group's consolidated financial situation, particularly in terms of debt, cash position and financial resources available on a short-term basis and in terms of forecasts.

Any operations that are significant for the Group's strategy, such as in particular the completion of external growth operations, key partnerships, asset sales or strategic investments, are subject to prior authorization by the Board of Directors provided the deal exceeds the threshold of 10 million USD. The Board of Directors is then kept regularly informed about progress of the operations in question.

In the area of social and environmental responsibility, the Board of Directors ensures in particular the implementation of:

- a mechanism to prevent and detect corruption and influence peddling;
- a non-discrimination and diversity policy, notably in respect of the balanced representation of men and women on the governing bodies; and
- multi-year strategic orientations on social and environmental responsibility: the General Management must inform the Board of Directors of the implementation of such orientations and the results obtained on a yearly basis. In terms of climate, the Board must include specific objectives for different time horizons in the Company's strategy. It shall annually review the results achieved and adjust them if necessary. The climate strategy shall be presented to the shareholders' meeting at least every three (3) years or in the event of a significant change.

1.2. Role and powers of the Chairperson of the Board of Directors

The Chairperson is the primary person with the capacity to speak on behalf of the Board of Directors. He/she organizes and oversees the activities of the Board of Directors, which are reported to the shareholders' meeting. He/she ensures that the corporate bodies operate in an efficient manner, in compliance with good governance principles. He/she ensures, in particular, that directors are in a position to fulfill their duties and are provided with information necessary to this end. The Chairperson is kept regularly informed by the Chief Executive Officer of the significant events related to the Group's business and may request from the Chief Executive Officer any specific information to enlighten the Board of Directors and its Committees. He/she may meet with the statutory auditors of the Company in order to prepare the works of the Board of Directors.

Upon request of the General Management, he/she may also represent the Company in its high-level relationships with governmental authorities and the Group's major partners, whether in France or abroad. He/she may communicate directly with shareholders, particularly regarding corporate governance matters.

1.3. Role and powers of the Chief Executive Officer (CEO)

The Chief Executive Officer oversees the Company's General Management. He/she manages the Group's Executive Leadership team (ELT). He/she is granted the broadest powers to act on behalf of the Company in any circumstances, subject to the powers vested in the Board of Directors or the shareholders' meeting by applicable law, and subject also to the Company's corporate governance principles (in particular the investment and expenses limits set by the Board of Directors). He/she represents the Company vis-à-vis third parties. He/she is responsible for the financial information released by the Company and presents, on a regular basis, the Group's results and prospects to the shareholders and the financial market. He/she reports on significant events for the Group's business to the Board of Directors and its Chairperson.

1.4. Role and powers of the Lead Independent Director

The Lead Independent Director plays a vital role in ensuring effective governance, when the roles of Chairperson (1.2 above) and Chief Executive Officer (CEO) (1.3 above) are combined. The Lead Independent Director is appointed from among the independent directors by the Board as long as the roles of Chairperson and Chief Executive Officer are unified.

The Lead Independent Director:

- manages and prevents conflicts of interest, ensuring proper identification, declaration and resolution (see 2.6 below);
- contributes to the Board agenda and may propose specific items for inclusion in the Board of Directors' agenda;
- ensures that key information is shared with Board members on time;
- facilitates communication with shareholders regarding governance matters if any concern is raised;
- convenes at least once a year the executive session in coordination with the Chairperson of the Appointment, Remuneration and Governance Committee;
- ensures compliance with the Board's internal rules and oversees the smooth functioning of the Board in coordination with the Appointment, Remuneration and Governance Committee;
- supports the recruitment and onboarding of new directors in coordination with the Appointment, Remuneration and Governance Committee (see Appendix 2).

The Lead Independent Director may, at any time, request the assistance of the Board Secretary in the performance of his/her duties.

1.5. Procedure to appoint directors

Directors are appointed pursuant to the procedure described in **Appendix 2**.

1.6. Board of Directors meetings

The Board of Directors meets at least four (4) times a year and whenever circumstances so require. In accordance with article R. 225-19 of the French Commercial Code directors may be represented at Board of Directors meetings by another director. Each director can represent only one (1) other director.

In the first semester of each year, the Board shall approve the calendar setting the dates and preliminary agenda of the Board and its Committees' meetings for the upcoming year.

The Board of Directors meets at least once a year in the absence of the Chief Executive Officer.

The statutory auditors are invited to attend the Board meetings, where their presence is mandatory pursuant to applicable regulations. They will have access to the minutes of all Board of Directors meetings, including those they have not attended.

Any person who might bring relevant information may also be invited to attend the Board and Committees' meetings.

Pursuant to article L. 225-37 of the French Commercial Code, the directors may take part in the Board's meetings by any means of telecommunication allowing for their identification and ensuring their effective participation in the meeting. They are then deemed present for the calculation of quorum and majority.

The Board of Directors, on the proposal of the Chairperson, shall appoint a Secretary. The Secretary ensures compliance with the operating procedures of the Board of Directors and establishes the minutes of the meetings.

The notices including the agenda of the meeting are sent by the Board's Secretary by email and are also uploaded on the dedicated secure website of the Board of Directors (the "**Board Portal**").

1.7. Evaluation of the Board of Directors

The Board of Directors organizes an annual evaluation of its operations and those of its Committees. This is a self-evaluation led by the Chairperson of the Appointment, Remuneration and Governance Committee with the assistance of the Board Secretary. Such assessment is supplemented once every three (3) years by an evaluation performed by an external consultant which includes individual interviews with each of the directors.

The procedure to evaluate the Board of Directors and its Committees is described in **Appendix 3**.

The results of these evaluations are analyzed by the Board of Directors and set the basis for action plans that are followed up on annually, in particular by the Appointment, Remuneration and Governance Committee.

2. RULES APPLICABLE TO DIRECTORS

2.1. Information for the directors

The Chairperson ensures that the directors are able to perform their duties well. He/she ensures that each of them receives all documents and information necessary for the performance of his/her duties.

In preparation of each Board meeting, the Board's Secretary sends documentation to the directors containing all useful information for each meeting agenda item. This documentation is usually sent by uploading the documentation to the Board Portal. The documentation is made available to the directors early enough to enable them to study the content before the meeting in question.

In addition, the directors are informed by the management, between Board meetings, about any events or operations that are significant to the Company.

Press releases concerning the financial statements and any events or operations significant to the Company are sent to the directors in draft form with sufficient notice before publication to enable them to provide their comments to the Chairperson or the management. The other press releases are systematically sent to them at the time they are made available to the public by the Company.

Finally, the Company may implement any training initiative that the directors consider necessary for their good understanding of the Group's businesses and its social and environmental responsibility aspects. The terms and conditions of these trainings shall be determined with the agreement of Chairperson of the Board.

2.2. Duty of expression

Each director has a duty to clearly express his/her opinions and shall strive to convince the Board of the relevance of his/her position.

2.3. Corporate purpose

Directors represent all the shareholders of the Company and must act according to the corporate purpose of the Company under all circumstances.

2.4. Diligence

Each director must devote the necessary time, care and attention to his/her duties. Before accepting any new position or office, he/she must consider whether he/she will still be able to fulfil this obligation at the Company. Unless he/she is genuinely unable to do so, he/she must attend all meetings of the Board of Directors and of any Committees of which he/she is a member, and all general meetings of shareholders.

2.5. Number of directorships

Pursuant to the provisions of the AFEP-MEDEF Code:

- the Chief Executive Officer may not hold more than two (2) additional directorships in listed companies outside the Group, including foreign companies. In addition, he/she must receive the opinion of the Board of Directors before accepting a new directorship in a listed company;
- a director may not hold more than four (4) additional directorships in listed companies outside the Group, including foreign companies. This recommendation will apply at the time of appointment or the next renewal of the director's term of office. The director should keep the Board of Directors informed of directorships held in other companies, including his/her participation on board committees of these French or foreign companies.

With regards to the Chairperson, the Board of Directors may draw up specific recommendations on this matter, taking into account his/her particular situation and the specific duties conferred to him/her.

2.6. Duty of loyalty and Conflicts of interest

Directors are bound by a duty of loyalty towards the Company. Directors must not act in their own interests, whether direct or indirect, against the interests of the Company.

Each director, as soon as he/she is aware, must inform the Board of Directors of any conflict-of-interest situation, even potential, between:

- on the one hand, the interests of the Company, and
- on the other hand, his/her personal interests, whether direct or indirect, including without limitation those that may involve him/her because of the duties or shares he/she may hold in other companies, or in his/her capacity as representative of a shareholder or group of shareholders.

In the case where the roles of Chairperson of the Board and Chief Executive Officer (CEO) are dissociated, the Chairperson of the Appointment, Remuneration and Governance Committee will be responsible for addressing and managing any conflicts of interest. When the Chairperson of the Appointment, Remuneration and Governance Committee is potentially conflicted, the Chairperson of the Board will be in charge.

If the roles of Chairperson of the Board and Chief Executive Officer are unified, the Lead Independent Director will be responsible for managing and overseeing any potential conflicts of interest that concern the Chairperson of the Board and Chief Executive Officer and the Chairperson of the Appointment, Remuneration and Governance Committee. For any other potential conflict of interest involving any other Director, including the Lead Independent Director, this will be handled by the Chairperson of the Appointment, Remuneration and Governance Committee.

In case of potential conflict of interest, the relevant Director shall abstain from attending the debate and taking part in voting on the related resolution. This obligation is complemented by an annual formal statement provided to the Company by each Director, testifying that he/she is not involved in any conflict of interest.

In addition, the Chairperson of the Board of Directors, the directors and the Chief Executive Officer shall not be required to send to the concerned director, or to the director for whom they have reasonable grounds to believe that he/she is in a conflict of interest within the meaning of this article, information or documentation relating to the agreement or operation that is the source of the conflict of interest. In the event that this information or documentation is not sent to the concerned director, the Board of Directors will be informed.

Finally, the directors, as soon as they are aware and, in any case, each year in the two (2) months following the end of the financial year, shall inform the Company of:

- within the last five (5) years:
 - any directorship or position held outside the Group controlled by the Company, whether the directorship or position is still in force or expired,
 - any conviction for fraud, association with a bankruptcy, receivership, or liquidation,
 - any official public accusation and/or penalty by statutory or regulatory authorities,
 - any order issued by a judge barring the director from acting as a member of an issuer's management, administration or supervisory body;
- any agreement they may have entered into, directly or indirectly, through an intermediary or through a company in which they have a directorship or position, with the Company or any of its subsidiaries. In such a case, the Board of Directors will determine if the agreement:
 - falls within the scope of related-party agreements defined by article L. 225-38 of the French Commercial Code; in which case the agreement will have to be priorly approved by the Board of Directors, or
 - fulfils the conditions of the agreements related to ordinary transactions and entered into under normal conditions within the meaning of article L. 225-39 of the French Commercial Code: in such a case, the procedure referred to in article L. 225-38 of the French Commercial Code could be ruled out and the classification of an agreement relating to ordinary transactions and entered into under normal conditions will be regularly reassessed in accordance with the Charter of the periodic assessment of these conventions adopted by the Board of Directors and available on the Company's website.

2.7. Duty of confidentiality

The directors are required to observe discretion concerning confidential information

regardless of whether the information is indicated as such by the Chairperson of the Board of Directors. Confidential information includes without limitation the following:

- The contents of the debates and deliberations of the Board of Directors and its Committees; and
- All information and documents:
 - that are presented at the meetings of the Board of Directors and its Committees;
 - that are communicated to the directors for the preparation of their work; or
 - of which the directors are or should be aware as part of their duties.

2.8. Stock market ethics - Transactions on the Company's securities

As part of their duties, the directors have access to inside information that, if made public, could significantly influence the Company's share price or the value of any other securities issued by the Company. Inside information may relate to operating revenues, financial or budgetary estimates, investments, acquisitions or divestments, main discoveries, cessation of important manufacturing units, launching or withdrawal of products, significant changes in shareholding or general management, transactions affecting the capital, the dividend, or the occurrence or settlement of a dispute.

As a reminder, the directors are bound by applicable laws and regulations concerning stock market ethics, in particular Regulation (EU) No 596/2014 of the European Parliament and of the Council of 16 April 2014 on market abuse (the "**MAR**").

Consequently, in accordance with article 14 of the MAR, the directors must abstain from:

- using inside information to carry out, directly or indirectly, transactions on shares or debt securities issued by the Company, derivatives or other financial instruments related to these securities (the "**Securities**");
- knowingly allowing a third party to use inside information to carry out such transactions; and
- communicating inside information to third parties, even if by negligence.

Furthermore, and without prejudice to the preceding paragraph, the directors may not carry out any transaction on their own behalf or on behalf of a third party, whether directly or indirectly, on the Securities during the following black-out periods:

- the **thirty (30) calendar days**¹ preceding the publication of the Company's half-year or annual results; and
- the **fifteen (15) calendar days** preceding the publication of the Company's quarterly results.

These publications normally occur the last week of February or the first week of March, in May, the last week of July and in November. **The directors are not permitted to carry out transactions on the Securities until the day following the publication.**

Moreover, the directors may not carry out any speculative or hedge transactions on the Securities.

In accordance with article 19.1 of the MAR, the directors and persons closely associated with them are required to declare to the French Financial Markets Authority (*Autorité des marchés financiers* or AMF) and to the Company, to the attention of the General Secretary

¹ Period set by article 19.11 of the MAR.

(general.secretary@viridiengroup.com), all transactions carried out on their behalf on the Securities.

The directors must notify in writing the persons closely associated with them of their declaration obligations and keep a copy of this notification.

The declaration to AMF of the transaction carried out must be completed **within three (3) business days of the transaction date.**

In accordance with article 19.9 of the MAR, the declaration threshold has been set at **€20,000** per person over the course of one (1) calendar year. Once the cumulative amount of the transactions carried out on the Securities surpasses this threshold, the concerned person is required to declare all the transactions carried out.

The declaration must be filed on the AMF's centralized system known as "ONDE" at the following address:

<https://onde.amf-france.org/RemiseInformationEmetteur/Client/PTRemiseInformationEmetteur.aspx>

Any director may at any moment consult the Company's Legal Department/General Secretary for any question concerning his or her abstention or declaration obligations related to transactions on the Securities as well as the AMF's filing system. The Company Legal Department is available to assist the directors with their declarations. However, as a reminder, the obligation to declare such transactions remains the director's personal responsibility.

2.9. Remuneration

The directors receive an annual remuneration pursuant to their office, the total amount of which is determined annually by the shareholders' meeting according to article 11 of the Company's articles of association.

The allocation procedures of this remuneration are determined by the Board of Directors and are approved by the shareholders' meeting, in the context of the approval of the remuneration policy applicable to the corporate officers. They take into account the directors' actual attendance and their membership on the Committees. The amount thus allocated to directors includes fixed and variable parts. In accordance with article 22.1 of the AFEP-MEDEF Code, the variable part must be predominant.

2.10. Minimum stock ownership

In accordance with article 8.5 of the Company's articles of association and article 21 of the AFEP-MEDEF Code, each director is subject to a minimum stock ownership requirement. To this end, each director (except the director(s) representing the employees) shall own at least:

- two hundred (200) shares² of the Company, for directors with first appointment at the Board of Directors before May 15, 2024; and
- a number of shares of the Company amounting to at least 30,000 euros (based on the share price at the purchase date), for directors with first appointment at the Board of Directors as of May 15, 2024.

² or American depositary shares (ADS)

The Company shares must be kept under the director's own name or through a company of which he/she is able to provide evidence of his/her 100% ownership of shares and voting rights.

Newly appointed directors will have six (6) months as from their appointment date to comply with this provision.

2.11. Communication between the directors and the shareholders or potential investors

The Board of Directors considers that only the Chairperson of the Board and the Chief Executive Officer have the capacity to speak for the Company. Nevertheless, individual board members may, from time to time, be contacted directly by shareholders or potential investors. In such a case, directors must inform the Chairperson of the Board of Directors and the Chief Executive Officer. In order to ensure the consistency of the communication between the Company and its shareholders and/or potential investors, no meeting between a director and a shareholder or potential investor may be held without the Chairperson of the Board and the Chief Executive Officer's prior approval.
